

Bird Block from Teje Karjalainen

10" finished – You will need 6 blocks for the Row Along. LAST BLOCK!!

Standing

Flying

Cut:

Background Sky

1 10 ½" x 2 ½" strip

3 2 ½" squares

2 3" squares, cut on one diagonal

2 2" X 2 ½"

Beak

1 3" square cut on one diagonal (will use only 1 triangle)

Legs

2 1" X 2 ½"

Bird Body

4 2 ½" squares

2 3" squares, cut on one diagonal (one triangle extra)

Bird Wing

1 2 ½" square

1 3" square, cut on one diagonal

Ground

4 2 ½" squares

2 2" x 2 ½"

1 3" square, cut on one diagonal

1. Match up half square triangles to make
1 beak block with background, 1 wing block with background, 1 wing block with bird body.
2 body blocks with ground
2. Make leg blocks
3. Lay out squares like the picture, and sew squares in rows, then sew rows together.

Hints for making a row: Draw a diagonal on the 3" squares, and then sew 2 half square triangles at once. Cut extra 3" squares so that you can use them across the blocks. If you want super easy, ignore the sky and ground, and use the same background for both.
