

Mug Rug, Coaster or Hot Pad

Cut your pieces.

For Coaster:

- 6 4 ½" fabric squares
- 1 4 ½" batting square

For MugRug:

- 6 6 ½" fabric squares
- 1 6 ½" batting square

For Hot Pad:

- 6 10" fabric squares
- 2 - 3 10" batting squares – cotton!

1. Choose the 4 squares that will be your backing. You can either fold them “hotdog” style or fold along one diagonal. Press.
2. Build your layers.
 - a. Put 1 square face down. This will be the square that holds in the batting on the back.
 - b. Put batting on top.
 - c. Put 1 square face up. This is the front.
 - d. Put 1 folded square on top of the front. Layer these so that the next one is on top of the previous one, going around the square. For the last folded piece, tuck the last end under the first square. This should interlock these squares. Use clips along the sides to keep the layers in place. It’s really too thick for pins.
3. Sew ALL the way around using a ¼” seam. Remove the clips as you go.
4. Sew a short diagonal seam across each of the corners. These corners are too thick to turn, so cutting off just a couple of stitches will make turning easy.
5. Fold the folded pieces to the back. Use a chopstick to pole out the rounded corners. Done!
