

Tortilla Warmer/ Baked Potato Bag

**Both fabrics and batting for this project should be 100% cotton.

Cut:

- 4 10" circles of fabric
 - 2 – outer
 - 2 – lining
- 2 10" circles batting

Sewing:

1. Place 1 outer and 1 lining right sides together. Place one batting circle on top.
2. Sew three quarters around the stacked circle. (to find $\frac{3}{4}$ around, just fold circle in half twice)

3. Repeat for the second circle stack.
4. Turn both circle stacks inside out and iron.
5. Place the two circle stacks with outer fabrics together. Match the unsewn sides together. The unsewn sides are going to become the bottom of the bag.
6. Use clips or pins to hold circles together and sew around the circle from one arrow to the other enclosing the unsewn area. You may wish to sew around the designated area again using a zigzag stitch to make a more finished edge to enclose any stray batting.
7. Trim around the edge and turn to the outside. Press.

To use as a potato bag, place one or two potatoes inside bag and microwave. Times may have to be adjusted depending on your bag and your microwave, but 3.5 minutes is a good starting point.
